

# the teenage chronicles

Part 2

Poems by  
Yashvi Lodha

## Yashvi Lodha

From an early age Yashvi has been involved with giving back to society and fosters a strong affinity towards serving her country in every capacity that she can. Yashvi's Academic Institution has recognised and acknowledged her consistent creativity, action, and constant service. The Honourable Governor of Maharashtra on two separate occasions, has awarded Yashvi for her many social contributions and dedicated work towards the community.

Poetry for Yashvi is her way of understanding the world around her, with both its strangeness and beauty. Every time this young poet experiences life, whether it be confusion, laughter, or just another thing that brightens her day, all these morph into verse and lyric. The origins of Yashvi's poetry are genuinely heartfelt and brim with organic authenticity.
